Creating Class-Based PowerShell Tools

Jeff Hicks

@jeffhicks

Download demos from:
https://github.com/jdhitsolutions/Demo-Class-Based-Tools

Before we begin

PowerShell classes introduced in v5

Intended for DSC Resources

Use for any toolmaking project

Class

Description of some thing

Has properties

Can have methods

May have one or more constructors

Demos

https://github.com/jdhitsolutions/Demo-Class-Based-Tools

Suggested Practices

Define class and enumerations separately from code

Use wrapper functions

Consider using formatting and type extensions

Package as a module

Share!

Thank You
